EASE AND ELEGANCE

Elegance is most often found at the expense of ease, and easy footwear makes you think of shabby old shoes.

The CROSSETT shoe happily combines grace in outline, style in design and sure foot-ease from the very start.

Come in and look at them. Try a pair on. You will be quickly convinced that this is the shoe which "Makes Life's Walk Easy."

The price of the Crossett is only high enough to safely clear the Crossett quality.

Remember, our reputation is bound up in every pair of shoes we sell.

The Florida Orange Crop

From the New York Packer of Oct. 3rd.

After obtaining reports from about 2,000 growers and shippers of Florida oranges and grapefruit, many of these reports appearing in this week's issue of The Packer, it looks as though the Florida crop will exceed 4,000,000 boxes this year. It may reach 4,500,000 boxes. According to The Packer's report the fruit was never in finer shape. It is as a rule clean and solid. All information points to a fair movement throughout the season. Many of those reporting to The Packer are of the opinion that there will be a good demand for the fruit until next spring because of its fine quality.

Buyers are bidding 75c. as a rule for the fruit on the trees and the growers are asking \$1. Some sales have been made at 75 to 80c. Of course, in the Indian river sections the oranges are worth more. At other points, for instance in sections where packing houses are handy and shipping stations near, some buyers are paying \$1 a box straight on the trees. A great deal of business has been done at this figure.

Before arriving at the canal their gasoline gave out and they had to anchor at 10 a. m. and waited until about 5 p. m. to get a tow to Clifton. Then with a supply of gasoline the motor refused to work and B. W. Watton brought the party back about 8 p. m. Considering the rainy and squally weather the outing was anything but an enjoyable one.
